# Plastico

## ABOUT US

Plastico is a importer and distributor in the Signage & Display sector, specializing in rigid substrates, aluminum profiles, and accessories.

Our house-brand reflects our commitment to delivering top-notch quality at unmatched affordability, driven by extensive research and development.

We strive to empower businesses with premium materials, fostering success in today's competitive landscape.

## CAST ACRYLIC

## EXTRUDED ACRYLIC

**Thickness: 3mm - 20mm**  
**Surface Finish: Gloss/Frost**  
**Variant: Clear, Opal, 10 Standard**  
**Colours: 4 Translucent Colours**  
**Sheet Sizes: 3050X2050, 2440X1220**  
**Warranty: 10 Year Outdoor,**  
**Anti-Yellowing and Colorfastness.**

We have ensured that manufacturing specifications exceed market expectations in terms of transparency, colour fastness and tolerance.

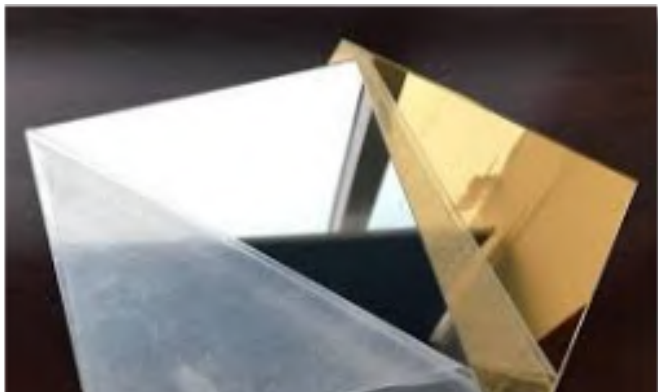

We are proud to extend a 10-year comprehensive warranty with SGS Certification across our entire Cast Acrylic range.

**Thickness: 3mm - 10mm**  
**Surface Finish: Gloss Variant:**  
**Clear Sheet Sizes: 3050X2050**  
**Warranty: 10 Year Outdoor,**  
**Anti-Yellowing**

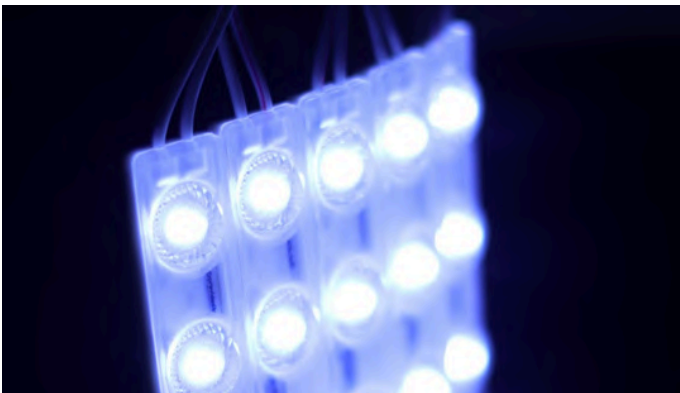

Our clients can be assured of superior sheet tolerance of less than 10% and a 93% transparency rate, which is ideally suited to the Sign & Display Market.

Unrivalled cost efficiency makes our Extruded Acrylic range the preferred choice

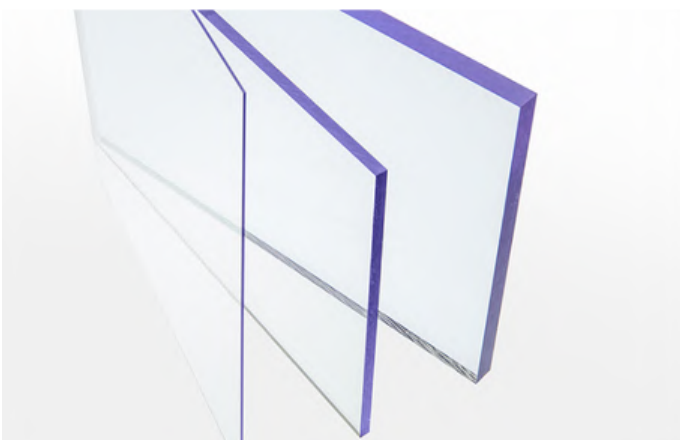

Our Extruded Acrylic Sheets are manufactured to exacting standards and carry a comprehensive 10-year warranty.

**MIRROR ACRYLIC**

**LED MODULE COLD WHITE**

**POLYCARBONATE**

**Thickness: 3mm Surface Finish: Mirror  
Gloss Variant: Silver & Gold Sheet  
Sizes: 2440X1220**

Our lightweight, flexible, and shatterproof sheets are ideal for safe use in signage and interior décor.

Our Mirror Finish Acrylic is designed for durability and functional cladding, ensuring uncompromised quality in every application.

**60pcs LED module for 100W,  
90pcs for 150W, 180pcs for  
300W. Try don't exceed these  
capacity.**

So for 60W power supply, can support 36pcs LED module.

Try don't exceed these capacity.

**Thickness: 2mm - 5mm Surface  
Finish: Gloss Variant: Clear Sheet  
Size: 3050X2050 Warranty: 10 Year  
Outdoor, Anti-Yellowing**

Plastico Polycarbonate Sheets have been produced to satisfy both indoor and outdoor applications.

A 10-year product warranty with excellent optical and mechanical properties make our sheets perfectly suited to signage and industrial applications.

**FOAM PVC SHEET**

**ABS SHEET**

**Thickness: 2mm - 30mm**

**Surface Finish: Semi-Gloss**

**Variant: White**

**Sheet Size: 2440X1220**

**10 Year Outdoor, 100% Waterproof,  
Mildew-Proof**

Our Foam PVC sheet has been re-formulated to offer greater strength and flexibility whilst maintaining rigidity.

Foam PVC Board has many diverse applications and you can now use it with absolute confidence knowing that our special formulation is up to the task.

**Thickness: 0.9mm, 1.5mm**

**Surface Finish: Gloss**

**Variant: White**

**Sheet Size: 2500X1250**

**All sheets are clad to protect the  
surface finish and is heat resistant.**

We have taken an old favourite and added a heat resistant single sided cladding.

This prevents our sheets from surface scratches during handling and can withstand heat bending and laser cutting. This amazing value-add comes without any compromise to cost.

**KT BOARD | FOAM BOARD**

**ALUMINIUM SQUARE TUBE**

**Thickness: 10mm**  
**Surface Finish: Semi-Gloss**  
**Variant: White**  
**Sheet Size: 2440X1220**  
**Sold in Full Packs Only (15/Pack)**

We have included KT Board to our product range to cater for the ever-growing flatbed printing industry.

The light-weight and robust properties of KT Board make it ideally suited to indoor signage and advertising applications.

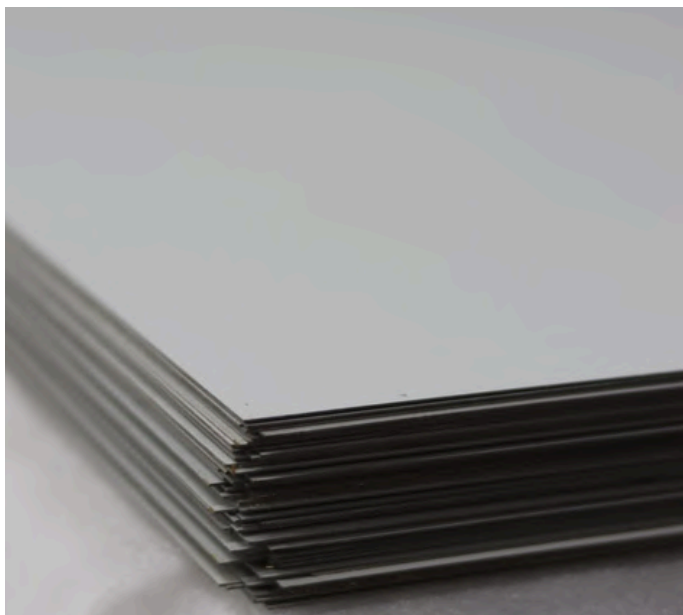

**Thickness: 0.9mm, 1.5mm**  
**Surface Finish: Gloss**  
**Variant: White**  
**Sheet Size: 2500X1250**  
**All sheets are clad to protect the surface finish and is heat resistant.**

We supply Aluminium Square Tube 25mmX25mmX1mm in 3 metre lengths

This is ideal for use with our standard Chromadek Sheets and minimises wastage and is easier to transport and process.

**SQUARE TUBE CONNECTOR**

**CHROMADEK**

**Application: 25X25 Square Tube, Wall Thickness 0.8mm - 1.2mm Connector Variant: Corner Piece, T-Piece, Brace Piece, Cross Piece, Decorative End Cap, 2 Way, 3 Way, 4 Way, 5 Way, 6 Way**

We carry a full range of plastic connectors which have been specifically sourced to work in conjunction with our Aluminium Square Tube 25X25.

They are manufactured from Polypropylene and are strong, durable and cost-effective.

**Thickness: 0.6mm, 0.8mm Sheet Size: 2250X1225 Variant: White Surface Finish: Gloss**

Our Chromadek Sheets are manufactured from premium quality steel and are chemically treated before primer coating.

This offers excellent outdoor durability with a 10-year warranty against corrosion

The perfect solution for those truly demanding outdoor signage applications.

# OUR SERVICES

## PANEL SAW

We offer a cutting service on our horizontal panel saw for all our plastic substrates. We are able to assist our customers with multiple panel size requirements using our CAD nesting program to ensure sheet optimization, minimising wastage and saving you money.

## LASER CUTTER

We provide professional laser cutting services with a bed size of 900x1200mm, ensuring precision and quality for all your cutting needs.

## FLAT BED CNC ROUTER

Our router with a 3m x 2m bed size is able to process complex shape cutting according to your specific needs. The extended bed size is also perfectly suited to our 3050mm x 2050mm ILA acrylic sheet size. Our endeavour is to become an extension of your production process.

## GUILLOTINE

We are able to cut our standard Chromadek sheets to your required size. Our guillotine is hydraulic and automated to ensure we are able to accommodate high volume cutting jobs to exacting specifications.
